

Investor Presentation

Results through Second Quarter 2019

1166 MARSH & McLENNAN

Forward-Looking Statements

This presentation contains "forward-looking statements," as defined in the Private Securities Litigation Reform Act of 1995. These statements, which express management's current views concerning future events or results, use words like "anticipate," "assume," "believe," "continue," "estimate," "expect," "intend," "plan," "project" and similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would." Forward-looking statements are subject to inherent risks and uncertainties that could cause actual results to differ materially from those expressed or implied in our forward-looking statements. Factors that could materially affect our future results include, among other things: (1) our ability to successfully integrate or achieve the intended benefits of the acquisition of JLT; (2) our organization's ability to maintain adequate safeguards to protect the security of our information systems and confidential, personal or proprietary information, particularly given the large volume of our vendor network and the need to identify and patch software vulnerabilities, including those in the existing JLT information systems; (3) our ability to repay our outstanding long-term debt in a timely manner and on favorable terms, including approximately \$6.8 billion issued in connection with the acquisition of JLT; (4) the impact of any investigations, reviews, or other activity by regulatory or law enforcement authorities, including the ongoing investigation by the European Commission competition authority; (5) the impact from lawsuits, other contingent liabilities and loss contingencies arising from errors and omissions, breach of fiduciary duty or other claims against us; (6) our ability to compete effectively and adapt to changes in the competitive environment, including to respond to disintermediation, digital disruption and other types of innovation; (7) the financial and operational impact of complying with laws and regulations where we operate and the risks of noncompliance with such laws, including cybersecurity and data privacy regulations such as the E.U.'s General Data Protection Regulation, anti-corruption laws such as the U.S. Foreign Corrupt Practices Act and trade sanctions regimes; (8) the impact of macroeconomic, political, regulatory or market conditions on us, our clients and the industries in which we operate, including the impact and uncertainty around Brexit or the inability to collect on our receivables; (9) the regulatory, contractual and reputational risks that arise based on insurance placement activities and various broker revenue streams; (10) our ability to manage risks associated with our investment management and related services business, including potential conflicts of interest between investment consulting and fiduciary management services; (11) our ability to successfully recover if we experience a business continuity problem due to cyberattack, natural disaster or otherwise; and (12) the impact of changes in tax laws, guidance and interpretations, including certain provisions of the U.S. Tax Cuts and Jobs Act, or disagreements with tax authorities.

The factors identified above are not exhaustive. Marsh & McLennan Companies and its subsidiaries operate in a dynamic business environment in which new risks emerge frequently. Accordingly, we caution readers not to place undue reliance on any forward-looking statements, which are based only on information currently available to us and speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made.

Further information concerning Marsh & McLennan Companies and its businesses, including information about factors that could materially affect our results of operations and financial condition, is contained in the Company's filings with the Securities and Exchange Commission, including the "Risk Factors" section and the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of our most recently filed Annual Report on Form 10-K.

Explanation of Non-GAAP Measures

This presentation also contains certain financial measures that are "non-GAAP measures," within the meaning of Regulation G of the Securities Exchange Act of 1934, as amended. The Company believes these non-GAAP financial measures provide useful supplemental information that enables investors to better compare the Company's performance across periods. Management also uses these measures internally to assess the operating performance of its business, to assess performance for employee compensation purposes and to decide how to allocate resources. However, investors should not consider these non-GAAP measures in isolation from, or as a substitute for, the financial information that the Company reports in accordance with GAAP. The Company's non-GAAP measures include adjustments that reflect how management views our businesses, and may differ from similarly titled non-GAAP measures presented by other companies. Please see the Appendix to this presentation for a reconciliation of non-GAAP measures to the closest comparable applicable GAAP measures.

A Compelling Core Holding For Any Long-term Portfolio

We Have a History of Strong Growth

*Reconciliation of Non-GAAP measures included in Appendix; **12 months ended 06/30/2019; periods prior to 03/31/2019 exclude JLT. Adjusted operating income and adjusted operating margin for 2017 and prior periods are adjusted to reflect impact of pension standard.

Operating Leverage Produces Margin Expansion

Runway for Continued Operating Leverage

- 2018 marks 11th consecutive year MMC reported adjusted operating margin improvement
- Underlying revenue growth has met or exceeded underlying adjusted expense growth in each of the last 11 years
- Shared service, offshoring, centers of excellence in India accelerating through JLT acquisition
- Continued efficiency in office footprint
- Technology and automation offer potential for further operating efficiency
- Significant investments in global platforms enable scaling of global functional operating model
- Global alignment of procurement practices

*12 months ended 06/30/2019; periods prior to 03/31/2019 exclude JLT. Adjusted operating margin for 2017 and prior periods is adjusted to reflect impact of pension standard. Reconciliation of Non-GAAP measures included in Appendix. Underlying revenue and underlying adjusted expense growth measure the change in revenue and expense using consistent currency exchange rates, excluding the impact of certain items that affect comparability such as acquisitions, dispositions and transfers among businesses. Underlying revenue growth and underlying adjusted expense growth are as originally reported and do not include the impact of the pension standard.

*12 months ended 06/30/2019; periods prior to 03/31/2019 exclude JLT; **2017 and prior periods adjusted to reflect impact of pension standard.

Other in 2010 is net Alaska litigation settlement; 2015 and 2016 reflects the gain on the disposal of Mercer's U.S. defined contribution recordkeeping business.

Adjusted operating income is calculated by excluding the impact of certain noteworthy items from the Company's GAAP operating income. The above table identifies these noteworthy items and reconciles adjusted operating income to GAAP operating income on a segment basis.

Adjusted operating margin is calculated by dividing the sum of adjusted operating income plus identified intangible asset amortization by consolidated or Segment adjusted revenue.
